TERMS OF PAYMENT

Airport fees

Airport fees are payable in full to the CHAMBRE de COMMERCE & d'INDUSTRIE du MANS & de la SARTHE before any take-off.

Should a client omit to pay the airport fees in full at the airport Operations counter, the Le Mans-Arnage Airport will issue an invoice with a flat invoice surcharge of €50.98 excl. tax.

Basis for invoicing

The fee is due for any landing aircraft. It is calculated according to the maximum take-off mass (MTOM) registered on the aircraft's airworthiness certificate, rounded up to the next metric tonne, as it appears in the VERITAS register for the current year.

The landing fee is doubled if the user does not show up to pay it for a landing during the service's opening hours.

Application of the tariff mentioned hereafter varies depending on aircraft noise levels.

In the event of non-payment of fees by the aircraft operator, the airport operator is entitled, through the authority responsible for air traffic at the airport, to request that the aircraft be withheld until the disputed amounts are deposited (Book II – Chapter IV – Article 224-4 of the French Civil Aviation Code)

Application of VAT

General principle:

VAT on airport services (landing, lighting, parking, passenger and fuel fees) is invoiced at the applicable rate on the day of the service. The applicable rate is 20%.

VAT SCHEME in force	Scheme
Approved French transport airlines (*) with less than 80% of international traffic	Liabile
Approved French transport airlines (*) with 80% or more of international traffic	Exempt
Approved foreign transport airlines	Exempt
Private or business aviation and aerial work companies	Liabile
French and foreign military aircraft, French and foreign state aircraft	Liabile

(*) Companies as defined by Article L.330-1 of the Civil Aviation Code.

Remarks

- **French companies**

To qualify for exemption, French companies must provide the Operations office of the Chambre de Commerce et d'Industrie du Mans & de la Sarthe with an official statement, valid for the current year, certifying that their international traffic services represent less than 80% of the services they operate.

Failure to present an official statement will lead to the Chambre de Commerce et d'Industrie du Mans & de la Sarthe adding the applicable VAT to the invoices.

In such cases, there will be no adjustment of invoices that have already been issued and exemption of VAT will only be effective from the date of reception of the statement, or the date the statement was sent as per postmark.

- **Charter flights or flights on behalf of another company:**

In all cases, VAT is applicable for airport services in compliance with the scheme that the company being invoiced is subject to.

Passengers

Basis for invoicing

The fee for use of airport facilities for passenger reception is payable for the use of shared structures and premises for passenger boarding, disembarking and reception.

'Passenger' fees, for any aircraft operating for commercial purposes or for any aircraft with a maximum take-off weight equal to or greater than 6 tonnes, are collected when passengers board.

Air transport companies are required to declare the number of passengers on the traffic sheet. If the document is not forwarded to the airport Operations office, the number of passengers invoiced will correspond to the maximum capacity for the type of plane in question, in accordance with the constructor's data.

Specific exemption conditions

The following are 100% exempt of the 'passenger' fee

- Crew members (Article 6 – Decree of 28/02/81)
- Passengers making a temporary stop at the airport and leaving by the same aircraft and with an identical flight number to the flight number of the arriving aircraft (Article 1 – Decree of 19/12/94)
- Passengers on an aircraft performing a forced return to the airport due to technical issues or adverse weather conditions (*Article 6 – 28/02/81*)
- Passengers of an aircraft carrying out a technical stopover (Article 6 – Decree of 28/02/81)
- Children under 2 years old (Article 6 – Decree of 28/02/81)

Parking

Basis for invoicing

The fee is calculated per hour of parking depending on the maximum take-off weight, mentioned on the aircraft's airworthiness certificate, as it appears in the VERITAS register for the current year, rounded up to the hundred kilograms.

Any hour started is due. An exemption of two hours is automatically granted.

General principles

The premises are provided in their current state and are subject to an occupancy agreement between the Chambre de Commerce et d'Industrie du Mans & de la Sarthe and the occupant.

The offices, commercial premises and counters are provided with standard connections (electricity, telephone, collective heating).

No works in the premises made available are authorised without prior agreement from the Chambre de Commerce et d'Industrie du Mans & de la Sarthe. An application must be sent to the Chamber's Director General.

Any changes to partitioning or connections are at the expense of the occupant. Invoicing is payable quarterly or monthly in advance.

The surface areas of the premises are rounded to the nearest square metre.

Tariffs

Fees for use of property are calculated based on the construction cost index prices (*reference index for 1st quarter*).
